Network: Binance Smart Chain (BEP-20)
Contract Address: `0x575cb0613f57deb908c0360e715c2378a22e59cb`

---

1. Executive Summary

Trupay USD (USDTP) is a **BEP-20-based digital stable asset** developed by **Tethra Project**. It is designed to provide **secure, transparent, and efficient USD-pegged liquidity** within the Binance ecosystem.
USDTP enables seamless cross-border payments, decentralized trading, and liquidity pooling while maintaining price stability.

---

2. Vision & Mission

- **Vision:**
  To build a reliable, borderless financial infrastructure where digital assets mirror real-world value and can be used for everyday transactions globally.
- **Mission:**
  To deliver a stable, transparent, and interoperable USD-backed token that connects traditional finance with decentralized ecosystems.

---

3. Problem Statement

Current stablecoins face limitations in accessibility, transparency, and cross-chain mobility. Trupay USD addresses these by offering:

- Decentralized issuance and verifiable reserves.
- Interoperability across DeFi and payment systems.
- Lower transaction costs compared with centralized stablecoins.
- Scalable architecture suitable for real-world financial integrations.

---

4. Solution Overview

Trupay USD provides:

- **1:1 USD Peg Stability** – Designed to maintain near-USD parity through reserve management.
- **Cross-Chain Compatibility** – Future bridge support to Ethereum, Polygon, and Solana.
- **Transparency & Auditability** – Smart-contract code verified publicly on BscScan.
- **Low-Cost Transfers** – Built on BNB Smart Chain for fast, economical transactions.

---

5. Token Details

Attribute	Value
Token Name	Trupay USD
Symbol	USDTP
Network	Binance Smart Chain (BEP-20)
Contract Address	`0x575cb0613f57deb908c0360e715c2378a22e59cb`
Decimals	6
Total Supply	10,000,000,000 USDTP
Issuer	Tethra project
Smart Contract Standard	BEP-20 (Compatible with ERC-20 Interface)

---

6. Tokenomics

Allocation	Percentage	Description
Reserve Treasury	40 %	Ensures backing liquidity and future exchange integrations.
Ecosystem Rewards	20 %	Incentives for staking, yield farming, and partner programs.
Development Fund	15 %	Product development, audits, and network upgrades.
Marketing & Partnerships	10 %	Community growth and global adoption campaigns.
Initial Liquidity	10 %	PancakeSwap LP and market creation.
Team & Advisors	5 %	Long-term strategic and technical contributors.

Total Supply: 10 Billion USDTP (Decimals 6)

---

7. Utility & Use Cases

- **Stable Trading Pair:** For DeFi protocols and DEX liquidity pools.
- **Payment Gateway:** Integration with merchants for USD-denominated payments.
- **Remittance:** Instant international transfer with negligible fees.
- **Yield Mechanisms:** Future staking and savings integrations.
- **Cross-Chain Bridge:** Bridged liquidity to multi-chain ecosystems.

---

8. Roadmap

Phase	Timeline	Key Milestones
Phase 1	Q4 2025	Token Launch & Smart Contract Audit
Phase 2	Q1 2026	PancakeSwap Listing + BscScan Verification
Phase 3	Q2 2026	CEX Listing + Strategic Partnerships
Phase 4	Q3 2026	Cross-Chain Bridge + Global Payment Integrations
Phase 5	Q4 2026	Tethra Pay Wallet Launch & DeFi Expansion

---

9. Governance and Compliance

Trupay USD emphasizes transparency, voluntary audits, and regulatory alignment. Community proposals and improvement plans will be governed via on-chain voting once staking modules are active.

---
